POTENTIAL ITINERARY CHANGES

Any itinerary updates will be communicated with families via the Wilderness Adventures app. WA directors put significant effort into planning fun, adventurous, appropriately challenging and eye-opening experiences for our students. We will do everything within reason to not stray from the itinerary as planned. However, itineraries can change depending on a variety of unpredictable factors.

Alterations are sometimes necessary and unavoidable for the health, safety, well-being, and enjoyment of the students. If an activity or area is altered for any reason (absent a force majeure), it will be replaced with a comparable activity or area, conditions permitting. Normal terms and conditions apply to trips with itinerary changes.
